

# National Civic League

*Advancing civic engagement to create equitable, thriving communities.*

## Become a Member

The National Civic League advances civic engagement to create equitable, thriving communities by inspiring, supporting and recognizing inclusive approaches to community decision-making. Since 1894, when Teddy Roosevelt and other reformers founded the organization, the League has been at the forefront of efforts to make local governments more open, accountable and effective. Today, more than ever, the work of the League is critical to helping create vibrant and healthy communities and a strong democracy.

Support our work by becoming part of a broad network of government, civic, and community leaders who are spreading the best in local innovations to the entire country.
